

# Template for Shape Game Pieces

You have permission to photocopy this template to use in the Shape Game (*see Team Meeting #2*). Make several copies of this page, each one on a different color of paper (card stock is recommended), and cut them out. Alternatively, you could trace the cut-out pieces onto different colors of construction paper and then cut them out. If your team has less than twelve members, we recommend using the Helium Stick game in place of the Shape Game.

This template is also available on our website to download ([missiontriptraining.com](http://missiontriptraining.com)).
